

RFI 2) Did SAWS have any opportunity in this instance to give advance warning to neighbors to stock up on water before outages occurred? No. Why or why not? SAWS did not know the extent of power reductions required by CPSE until further demand reductions were requested after the storm emergency was underway, SAWS was not aware that facilities were going to be disabled due to power shutdowns. Without prior notification of this possible shutdown, there was no cause for SAWS to notify customers of possible wide-spread water outages.
